ABOUT ME

Dedicated game programmer with a deep passion for creating state machines and efficient systems. Experienced in programming languages like C++, C# and Python, with a keen eye for detail. Committed to pushing the technological boundaries of gaming through innovative concepts and collaboration.

EXPERIENCE

Portfolio Highlights (Please see the link at the top left)

- Developed multiple independent game projects, demonstrating skills in game mechanics, user experience and state machines.
- Worked on collaborative projects, contributing to both technical design and programming aspects.

Boxing Coach Assistant

Mackenzie's GYM, Bournemouth | 2022

Developed strong leadership and organizational skills by coaching children in fitness and boxing, creating personalized training programs to motivate them toward their goals. Managed training sessions, fostering responsibility and tracking progress.

Catering Staff

Italian Spuntino Restaurant, Heathrow | 2023

Worked collaboratively to ensure smooth operations during busy shifts, maintaining punctuality and a professional attitude in a high-pressure environment. Communicated effectively with customers and colleagues to ensure accurate orders, while assisting with stock organization and store upkeep for a clean, welcoming atmosphere.

Waiter

BrightSparks, London | Current job

Provided excellent customer service by assisting clients with inquiries, handling complaints, and processing transactions efficiently. Developed strong communication skills, resolving issues calmly and maintaining professionalism throughout.
